Garden Notepad Plus is a time and labor saving software application that allows garden staff to capture information about the size and condition of plants in the field on an iPad and automatically upload and transfer that information to BG-BASE. To use Garden Notepad Plus, you must first install, Web-VQF, the BG-Map web interface.

"I have used the Garden Notepad in our Core Gardens inventory of plants. I saved so much time in the field and in the office... I feel that the Garden Notepad is a helpful addition to our plant records system!"
Angela Brown, Plant Recorder
The North Carolina Arboretum

- With Garden Notepad Plus, You Can Record:**
- Condition
 - Images
 - Pests and Diseases
 - Horticultural Tasks Completed
 - DBH
 - Number of Trunks
 - Sex
 - Reproductive Status
 - Vegetative Status
 - Container
 - Die Why
 - Location
 - Number of Plants
 - Special Characteristics
 - Spread
 - Height
 - Check Note
 - Performance Note
 - Labels Existing
 - Labels Needed
 - Tree Hazard Rating, Comments and Recommended Action
 - I-Tree canopy volume, condition and land use
