

BG-Map Garden Notepad Update Installation Instructions

Note: This version of Garden Notepad requires BG-Map 2010 or later or GreVid and Garden Notepad Standalone Version 5.0 or later. If you are using GreVid, it requires GreVid version 5.4 or later.

Note: Before installing this software, make certain that you have a backup copy of the file `phrases.txt` that contains the latest version of your check note phrases.

Note: If during any installation step, the Device displays the following message, ignore it: "The program you have installed may not display properly because it was designed for a previous version of Windows Mobile software."

Step 1 - Install NSB Support Files

Note: You may skip this step and move on to Step 2 if you have already installed any of the following applications on this mobile device:

Total Station Interface Version 5.0 or later.
Garden Notepad Version 5.0 or later
GreVid Version 4.0 or later

Connect the Device to your desktop PC using Microsoft ActiveSync.

Run the installation program **RuntimeFat.ppc.exe** located in the NSB **Installation Files** folder. Accept all defaults.

Run the installation program **MGCEWin32.exe** located in the NSB **Installation Files** folder. Accept all defaults.

Step 2 – Install Garden Notepad

Important: If, in this step, you see the following message on the Device, answer **No to All**: "Would you like to replace the existing file "`\Windows\pvbform2.dll`" with this one..."

Connect the Device to your desktop PC using Microsoft ActiveSync.

If Your Device Runs:	Do This:
Windows Mobile 5 or later or Pocket PC 2003	Run the Install.exe program.
Pocket PC 2002	Run the Install2002.exe .

Install the program to the Default Installation Location.

Step 3 – Update Labels Information

Note:	Perform this step only if you have exported <i>BG-BASE</i> label types, container and die why codes, and have not previously exported them to this mobile device.
--------------	--

Connect the Device to your desktop PC using Microsoft ActiveSync.

In BG-Map, select **Field Data/Export *BG-BASE* Label Types Container and Die Why Codes**. Or, in GreVid and Garden Notepad Standalone Version, select **Setup/ Export *BG-BASE* Label Types, Container and Die Why Codes**.

Step 4 – Update Check Note Phrases

Note:	Perform this step only if you have created a file, <i>phrases.txt</i> that stores your check note phrases, and you have not previously copied it to this mobile device.
--------------	--

Using Windows Notepad or another text editor, edit or create a file named **Phrases.txt** containing check note phrases that you wish to use with Garden Notepad, one phrase per line, as in the following example:

```
winter damage  
borer infestation  
needs pruning  
cut back to ground
```

Connect the Device to your desktop PC using Microsoft ActiveSync.

Using Windows Explorer, copy the file **Phrases.txt** to the **\Program Files\Garden Notepad** folder on the Device.
