

# BG-Map GreVid Update Installation Instructions

---

## Step 1 - Install NSB Support Files

**Note:** You may skip this step and move on to Step 2 if you have already installed any of the following applications on this mobile device:

Total Station Interface Version 5.0 or later.  
Garden Notepad Version 5.0 or later  
GreVid Version 4.0 or later  
PropNoter

Reset the Device (soft reboot). This is usually done by inserting the stylus into a small hole at the bottom of the unit.

Connect the Device to your desktop PC using Microsoft ActiveSync.

Run the installation program **RuntimeFat.ppc.exe** located in the **NSB Installation Files** folder. Accept all defaults.

Run the installation program **MGCEWin32.exe** located in the **NSB Installation Files** folder. Accept all defaults.

## Step 2 – Install GreVid Database Support File (ADOCE Version 3.1)

**Note:** Complete this step only if your device runs Windows Mobile 5 or later and you have not previously installed GreVid version 5.4 or later on it. Otherwise, skip to Step 3.

On your mobile device, go to Start/Settings/System/Remove Programs. If ADOCE version 3.0 is listed, remove it.

Connect your device using ActiveSync. Run the program **ADOCE31\_Intall.exe** located in the **NSB Installation Files\Windows Mobile 5 Only** folder.

## Step 3 – Install GreVid

**Important:** If ,in this step, you see the following message on the Device, answer **No to All**: “Would you like to replace the existing file “Windows\pvbform2.dll” with this one...”

Connect the Device to your desktop PC using Microsoft ActiveSync.

Run the **Install.exe** program.

Install the program to the Default Installation Location. Choose the "Reinstall" option if prompted.

If this is the first time GreVid has been installed on the device, or if you completed Step 2 above, you will need to update the GreVid database.

See <http://www.bg-map.com/userdata/GrevidDBUpdate.html>

If you wish to update the map displayed by GreVid, see <http://www.bg-map.com/userdata/GrevidMapHowto.html>
